Hi Eleanor,

I just got off the phone with Tom Roschard at the DNR. He is not sure if/when he will be sending someone to witness the testing.

I can let you know when I hear from him, or you can contact him directly if need be.

Thanks,

Alina

Thank you. Yes, we have also notified the WDNR and provided the protocol to them as well.

Hi Marty, Alina and Mark,

I have reviewed your proposed stack testing protocol, and this email constitutes my approval.

I will plan to attend the stack testing, but am not sure I will be present on all three days. Have you notified WDNR of your intent to test?

Thanks,

Eleanor

Ms. Kane,

Attached is the protocol for the proposed emission testing at Madison-Kipp Corporation. As noted in the attached protocol, the emission testing is current schedule for May 10, May 16, and May 17, 2014. Please contact me with any questions or comments on the protocol.

Kind regards,

Marty

Subject: RE: Tuesday Meeting

Hi All –

Per our conversation today, we agreed to modify the due date of the testing protocol to 30 days from today (meaning I will expect to receive it on Monday, April 14). We further agreed that, barring any major difficulties scheduling the testing, the testing would be performed within 45 days after April 14).

Finally, we agreed that testing for all pollutants at the Atwood plant would be done on the one operating furnace.

Let me know if you have any additional questions,

Eleanor
